

MOHD SAQIB KHAN

SOFTWARE DEVELOPER ENGINEER

SUMMARY

Full Stack Developer with a strong track record of building scalable, high-performance web applications from the ground up. Skilled in designing modular architectures, developing secure backend services, and creating seamless user experiences. Experienced in working with microservice-based systems, implementing best practices for data security, access control, and system scalability. Committed to writing clean, maintainable code and delivering end-to-end solutions that align with business goals.

WORK EXPERIENCE

Software Developer Engineer | Sep 2024 - Present AXIS BANK

11th floor Tower B, Cyber Greens, Gurgaon

- **HRMS Portal:** Designed and developed a robust, scalable HRMS (Human Resource Management System) application for Axis Bank from the ground up, leveraging Next.js for the frontend and Node.js with MySQL on the backend, following microservice architecture principles to ensure modularity and maintainability; implemented core workflows including employee onboarding, with seamless integration of authentication, maker-checker, role-based access control, and service orchestration.
- **Encryption/Decryption Service:** Built a robust, scalable encryption-decryption service using AWS KMS with key rotation via envelope encryption, avoiding DB updates on key change; implemented Sequelize hooks for real-time data encryption/decryption and used AsyncLocalStorage to securely isolate keys per request, ensuring thread safety and eliminating context drilling.

Software Developer Engineer | Jan 2023 - Sep 2024 BYJU'S

3rd Floor, Windsor IT Park, Sector 125, Noida

- **Engineered Fusion Proxy:** Developed a Node.js and Express.js service in a 2-person team, consolidating requests across Aakash, BYJU'S, and Tutor Plus, transitioning vertical infrastructure to a horizontal model to enhance efficiency. Coordinated concurrent requests to services, resulting in a reduction of overall response times from an average of 5 seconds to 2 seconds. Implemented io Redis to streamline multiple requests in a single connection, resulting in a 50% reduction in data retrieval response times from 3 seconds to 1.5 seconds.
- **Activation Portal:** Developed and implemented a kit activation portal using ReactJS for the BYJU'S learning app in the US, facilitating seamless activation through unique activation codes, contributing to an app with over 10 million downloads.
- **Funnel Optimization and CAT college predictor:** Optimized funnels and applied new user engagement strategies, resulting in a substantial 15% increase in lead generation. Built a CAT college predictor page, empowering users to accurately assess their eligibility for colleges based on academic performance, leading to a 25% boost in informed decision-making and user interaction.
- **CSIR NET Eligibility Calculator:** Developed and integrated an eligibility calculator for lectureship and JRF, leading to a notable 25% increase in website traffic and an impressive 30% rise in signups.
- **Unbounce Integration:** Coded and deployed static pages on Unbounce, seamlessly integrating them into the website flow through JavaScript event dispatchers/listeners to optimize lead generation efforts.
- **SEO Enhancement and Web Vitals Optimization:** Enhanced SEO and optimized web vitals, focusing on improving CLS and other metrics to enhance website accessibility and performance, contributing to an overall improved user experience.

ACADEMIC HISTORY

Chitkara University | 2019-2023

Bachelor of Engineering (Computer Science)

- GPA: 9.85 / 10.0
- Academic Excellence Awardee

Rainbow School Saharanpur

PCM + Informatics Practices (Physics, Chemistry, Maths)

- Senior Secondary (Class XII) | 2018 – 80.8%
- Higher Secondary Education | 2016– 8 CGPA

SKILLS

- | | | |
|--------------|-------------------|----------------------------------|
| • HTML | • Node.js | • Docker |
| • CSS | • MongoDB | • Git/Github |
| • JavaScript | • MySQL | • PostgreSQL |
| • React.js | • AWS | • Sequelize |
| • Next.js | • Typescript | • JIRA |
| • Redux | • Elasticsearch | • Jenkins |
| • Webpack | • Problem Solving | • Data Structures and Algorithms |
